School Founders' Day – April 10, 2020

FROM DIRECTOR'S DESK

Happy Founder's Day To all Careerians and Team of Career Academy

Every year April 10 engulfs us with fond memories and nostalgia of bygone years spent in building this great Institution. As we enter into our 20th year of inception on April 10, 2020 amidst the "Lockdown" due to outbreak of Covid19, career Academy stands in solidarity, with our commitment to support the Government authorities, Police and health workers in this crusade to make our city Patiala free from this pandemic. Career academy has distributed masks, food packets to the needy during this hour of need.

At Career Academy Learning never comes to standstill even during lockdown, The school immediately started online classes to engage the students locked in their homes. The IT department came into action by training teachers to use online software to impart lessons and assignments to students which earned a great appreciation from parents. We thank the parents in supporting us by providing a healthy, conducive environment to children at home for them to continue with their studies while being stress-free and emotionally strong.

Our holistic approach, dynamic curriculum, innovated teaching practices are not only reflected in academic performance of our students but also in developing a conscientious individual ready to step into the competitive world.

Our CDP-Career Development Program paves a clear road map for the most suitable Career option according to Student's Aptitude, Interest and I.Q. Our Ex-Careerians spread across the world are making a mark in their fields and making us proud.

Our new alumni portal “COSA” Is giving them a platform to reconnect with school and share their success stories.

This session too, we have many surprises for students ; Integrating Canadian Curriculum Like ESL classes for students, CPA approach in math, Career Olympiads, Career counseling sessions by experts, Newly formed clubs- Dhwani club, Movers and Shakers Club, Robo Genius Club, Matilda Club, IT club and many more.

Our Kindergarten- “Buddies & Bunnies” has carved a niche for its system, approach and blended curriculum, making our students twice as smart in language, math and reading skills!

We firmly believe that only Education can transform a individual, society and a country! Let us together unlock the potential of our students even during Lockdown as “Learning never stops in Career Academy”.

Be safe at home.

Career Academy School celebrated founder's day on 10th April, 2020. It was an opportunity to laugh, cry, and remember and to praise the memories of the school. The day was celebrated with fervor, zest and enthusiasm. An extravaganza of activities were conducted through special online package. Function began with school prayer followed by dance performance and ardaas related to current crisis of COVID 19. There were special speeches by senior student council. Students from middle wing gave a mesmerizing enactment of a self-composed poem on their school. It was extremely fulfilling to watch a video on the journey of the school that made everyone nostalgic. Assembly ended by paying reverence to national anthem. Director KK Bhatia expressed gratitude and clearly defined the mission and vision of the school.

Covid -19 outbreak has affected masses globally in different ways. The entire nation has come to a standstill. The virus is hampering education of the children from all over the world. But, wait a second, does education mean just to learn from books and notebooks while present in the classrooms? Well, the answer is NO

Careerians are setting examples by proving that education means to acquire knowledge, skills , habits , values and facilitate learning in every possible way even if one is confined indoors.

These quarantine days have taught students to utilize their time productively by learning to write articles, design posters and logos, think critically, working online, media literacy skills and various other dexterities.

The collage features several student articles and posters:

- Time**: An article titled "Overexposures to phone is taking a toll on your eyes" discussing eye strain from screen time and providing tips to reduce it.
- Stress Management**: A poster with a central figure and surrounding icons, listing tips like "Turn to authentic information sources", "Eat less fat, processed sugar", and "Have an intergroup conversation with family".
- Keep an eye on your screen Time**: A poster with a similar title and content to the first article, emphasizing the importance of eye health during lockdown.
- CELEBRATING BAISSAKHI 2020**: A poster celebrating the Sikh festival of Baisakhi, noting that different modes of celebration are adopted due to the pandemic.
- Stressed??Manage it...**: A poster with the headline "Fear and anxiety are making the situation worse for many people. It is time to let go of things one can't control" and a list of coping strategies.
- Be aware of cyber threat while working at home**: A poster with the headline "BE AWARE, BE SECURE" and "Protect all your devices", listing cybersecurity tips.

A large orange banner in the center of the collage reads "project based learning".

TREES : PERSONAL AND SPIRITUAL VALUE ...

We like trees - beautiful and majestic. Different species - variety of shapes, forms, texture and vibrant colors.

Individual trees vary appearance throughout the year. Strength, long lifespan and regal structure of trees give them a monument - like quality.

Presence of trees - pleasant, relaxed, comfortable feeling. Many people plant trees as living memorials of life changing events.

IMPORTANCE AND VALUE OF TREES

Cool shade
 Old trees serve as historic landmarks - great source of town pride
 Trees reduce the heat island effects in cities.

Earth is the god's best gift to us, we made it worst. Let's care for it, save greenery around us.

TREES ASSOCIATED WITH WILDLIFE

HERBIVORES : dependent on leave for nourishment. Monkey and other animals feed on fruits. Birds, bats and insects feed on flowers for nectar. Help in dispersing seed.
 Home to hundreds of living creatures.
 Branch of trees - protection to birds and squirrels from predators.

TREES : COMMUNITY AND SOCIAL VALUES ...

Important part of every community.
 Streets,parks,playgrounds-create peaceful aesthetic and pleasing environment.
 Increase the quality of life by bringing natural elements and wildlife.

STRESS MANAGEMENT TIPS WHILE IN RECOVERY

- Why coronavirus is causing so much panic: **0000**
- "Fear of the unknown has always been one of the biggest fears. The way COVID-19 is spreading and affecting the whole world is unnerving for most people. The unknown variables are increasing anxiety among the masses. As contagious as it is, the mortality rate among healthy individuals is very low. A lot of people are recovering after testing positive to the disease. So, we must not lose sight of this silver lining and spend this time rebuilding our lives and relationships with positivity and togetherness. Let us commit to being at our best in these challenging times as mother earth prepares to renew itself.
- Make a mindful routine** - To keep anxiety and fear at bay, we must direct our focus on things we can work on and let go of things we cannot do anything about. Even oiling your hair can be a meditative practice, if done with awareness. Stop multi-tasking, zero down on the single task at hand.
- Best time to reconnect** - We finally have the time to reconnect with our family members and have uninterrupted conversations. Journaling your thoughts will put things into perspective.

Good and inspiring thought can spice up our day. Listening new thought in the morning works like fuel which keeps us smiling and encouraging throughout the day. So to inspire with her thought here comes Mankirat of Grade IX-i. Mother Earth: She is the one who gives us birth. The trees, soils, mountains, seas, oceans all are one by one getting killed only to make money for our meals. With this Harsimran kaur of Grade-VII-i is going to present a poem on how our Mother Earth is

Updating ourselves everyday is good and never ending habit. We should always have this type of habit which show our awareness towards our society towards our nation and that is possible when we are eager or fond of it. Now Himani Sharma of Grade:-IX-n will make us inspire by today's news

The Earth is the only planet in our solar system that humanity can comfortably inhabit. The Earth is a paradise for the creatures that lives on it. It is an unfortunate fact that we have not taken good care of the land that has been placed in our guardianship. Now Ravneet of class X-i will share some of her views regarding exploitation our Mother Earth.
